THE REAL STORY OF VICKY MAFOKO

NB:A CHILD IS DEAD AT THE CIRCUMSATION AFTER A STURBBORN CIRCUMSATION OWNER.

.We had a child by the name of vicky mafoko.He was howing around 14 to 15 years of age and he was affected by sickness deases called hemophilia.he was born with this strongest desease inside his blood.

.If he get stabbed by something like a dangerous weapon like knife,wire or anything that can make him cut somewhere everywhere on his body.His blood come out immediately fast without stopping and the only thing that can make the blood to stop is particular medicine of which we can get medicine in hospital like Mankweng and provincial hospital in Polokwane because he was receiving a treatment at the above mentioned hospitals.

.He was robbed by some unknown boys from the same community of unit D[Terfloop] to circumsation.We had the news that he went to circumsation and as a family we decided to call the owner of the circumsation.It was on the 31 of june 2013 on Sunday afternoon.The owner of the circumsation decided to prove sturbborn when he receives our call about the sickness of the boy

.We received a call from him after the next three days when he says that the disease of the boy was getting worse.He then rushed him to hospital and only to find that the boy's blood is finished.All the experience doctors were of duty but the nurses tried to give him treatment.I was shocked by his death because he was my close relative
