Haemophilia

Haemophilia

haemophilia A le haemophilia B ke bolwetši bjo o belegwago le bjona, bja go tšwa madi ka mokgwa o o sa tlwaelegago bophelo bja gago ka moka.

Haemophilia A goba haemophilia ya maemo a tlwaelegile, ke bolwetši bja tlhokego ya sekgahliši (clotting factor VIII) (8).

Haemophilia B goba bolwetši bja Keresemose, ke bolwetši bja tlhokego ya Factor IX (9) ye e dirago gore madi a kgahle.

Ntle le sekgahliši (clotting factor) madi ga a kgahle a tla no ela.

Maswao le Dika tšeo di Tlwaelegilego

Mengwaga ye 2 ya bophelo

- ▶ Go tšwa madi kudu go tloga boseeng mo khubjaneng le go tlošweng ga letlalo mo bonneng.
- ▶ Ponagalo ya matetelo goba khumugo kudu.
- ▶ Go tšwa madi nako e telele mo molomong, lelemeng le dipounameng ge o gobetše.

Mengwaga ye 3-4 ya bophelo

- ▶ Ponagalo ya matetelo goba khumugo kudu.
 - ▶ Madi a no itšwela ka ntle le kgobalo goba go gobala gannyane.
 - ▶ Madi a elela ka gare ga dinama tše boleta le ditokololo.
-
- ▶ Bohlatse bja go tsebalega ga go tšwa ga madi - go golofala ditokologo le go sa itekanele.
 - ▶ Tsebalego ya bolwetši ba go tšwa madi go maloko a ka gae.
